

TOPS® Pro

What is TOPS®Pro?

This easy to use software enables you reduce packaging and transport costs by 5-20% by optimising all areas of packaging design, from primary and secondary packaging through to case, pallet and vehicle.

Package Design & Load Optimisation

“TOPS® has been an invaluable tool in defining product packaging and shipping carton packing plans. We have been able to increase our shipping density by around 15% over manual planning when the software is utilised”

Chris Grayer, Quality Assurance & Supply Operations Manager, Burberry.

What are the benefits of TOPS®Pro?

- Improved productivity by decreasing the time required for package design
- Optimised case/pack size and case configuration
- Optimised pallet patterns to allow more products to be shipped per vehicle
- Calculated compression/stacking strength to minimise damage during transit

**5-20% savings
on Packaging
and Freight
Costs with
TOPS® Pro**

Package Design & Load Optimisation

TOPS® Pro Clients include:

Argos

Avilton Foods

Ashbury Confectionery

Character Group

Delphi Diesel Systems

Dyson

ICI

Ivax Pharmaceuticals

Kimberly Clark

Lifescan

Littlewoods

Morphy Richards

OKI

Seven Seas

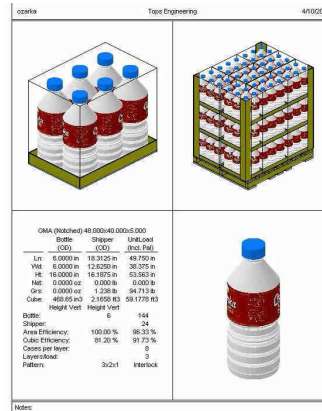

York Barbell

AutoLogic Systems Limited

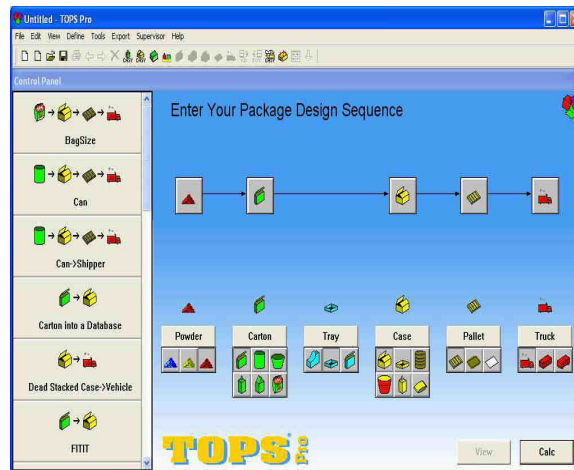

LOOKING FORWARD TO THE FUTURE

Key features of TOPS® Pro include:-

- **Primary pack sizing**
- **Case/Intermediate pack sizing and analysis**
- **Pallet optimisation and configuration**
- **Vehicle load optimisation with single/palletised items**
- **Stacking strength/compression analysis and board grade selection**
- **Database of standard packaging designs**
- **Utility for creating customised shapes for packaging designs**
