

PERFECTR

ASSET CONDITION MANAGEMENT

Manage and report on the condition of your assets

Overview

- PerfectR captures field data, with the use of a handheld tablet, IOS or Android device, to produce reports on the condition of existing or new assets.
- Ideal for the delivery stage of assets as they can be snagged, reviewed and signed off before going into operation.
- Documentation, videos, photos and performance data can be assigned to assets graphically.
- Facilitates the handover, ownership, management and sale of assets.
- Perfect for all sizes or warehouses, manufacturing plants or buildings and has a limitless number of assets that can be managed.
